

Acme Corp - Q2 2024 Finance Report

Executive Summary

Total revenue for Q2 2024 reached \$18.4 million, representing a 12% year-over-year increase. Net profit margin improved to 21% driven by operational efficiencies. EBITDA stood at \$4.2 million, up from \$3.6 million in Q2 2023.

Revenue Breakdown

Product sales contributed \$11.2M (61%), professional services \$4.8M (26%), and subscription licenses \$2.4M (13%). The enterprise segment grew 18% quarter-over-quarter, while SMB revenue remained flat at \$3.1M.

Expenditure Analysis

Operating expenses totalled \$14.5M. R&D spend was \$3.2M (22% of revenue), Sales & Marketing \$4.1M (28%), and G&A \$2.8M (19%). Cost of goods sold was \$4.4M.

Cash Flow Statement

Free cash flow for Q2 was \$2.9M. Capital expenditure amounted to \$0.8M primarily for infrastructure upgrades. The company holds \$12.6M in cash reserves.

Forecast Q3 2024

Management projects Q3 revenue of \$19.5-\$20.2M assuming continued enterprise growth. Key risks include supply-chain delays and potential FX headwinds in EMEA.
